

Dear Resident:

Malta is on the forefront of a county-wide effort to build trails for the enjoyment of our families, tourists and businesses. Over 7 new miles of trails for bikers and hikers have been added to the Luther Forest Tech Campus in the past 4 years. Malta was the first to build the central link to the **Zim Smith Trail** and now it has been extended to **Ballston Spa and Coon's Crossing** in Halfmoon. Trails in Malta

We are pleased to report that the Saratoga County Board of Supervisors has decided to extend the **Zim Smith Trail even further – to Mechanicville.**

Much, much more is to come as Malta builds the canoe launch on RoundLake and partners with our neighboring towns to link us to even greater trail opportunities in the county.

We are also pleased to report that Saratoga P.L.A.N, with support of Saratoga County Chamber of Commerce and County Planning Department is mapping trails and canoe launch sites, not only in Malta but County-wide.

To download maps, visit the Saratoga P.L.A.N website:

www.saratogaplan.org/trail_zimsmith.html

You may also download maps from the Saratoga County website:

www.saratogacountyny.gov and click on initiatives.

Whether you bike, walk, snowshoe or kayak , we hope that you are enjoying these outdoor opportunities.

Sincerely,

Paul J. Sausville, Supervisor
