2020
Mitigation Fee Schedule

	Mitigation fees			
	GEIS Prep.	Traffic	Recreation	Open Space
Unit of measure	Traffic Trip	Traffic Trip	Residential Per dwelling	Disturbed Acre
Cost Per Unit	\$162.00	As determined in consultation with CDTC	\$1,037.00	\$1,206.00

FINAL FEES

Final fees are the same as preliminary fees except no additional escrow monies are necessary if the escrow has a positive balance. These fees are due upon submission of final maps to be signed by our Town Engineer and Planning Chairperson. There are no final fees for a lot line adjustment.

NOTE: Escrow fees are used to pay for engineering/CDTC /consultant review costs, advertising and notification costs. A positive balance must be maintained in the applicant’s escrow account at all times. Failure to maintain a positive balance will delay further Board action. The Building and Planning Department maintains all escrow accounts. Any escrow money not expended will be returned to the applicant.

RECREATION FEES

There will be a fee of \$1,037.00 per residential building lot due upon submission of each building permit.

GEIS Mitigation Fee Calculation

The required developer mitigation fee will be calculated by the Town as set forth in the Findings Statement of the Supplemental Town-wide GEIS based upon the developer plan submission. The Town has established the following parameters to assist in this process:

GEIS Preparation Mitigation Fee: The Mitigation Fee for preparing the GEIS will be calculated based on the proposed Trips multiplied by \$162.00. One half (1/2) will be due at the time a building permit is issued for commercial, industrial and other non-residential uses with the remainder due at the time the certificate of occupancy or compliance is issued. For residential uses one half (1/2) of the GEIS Mitigation Fee will be due at the time each individual building permit is issued with the remainder due at the time the certificate of occupancy is issued.

GEIS Mitigation Fees collected will be accounted for in a designated account and shall only be used to offset the costs of the preparation of the Town-wide GEIS or future supplementals/updates of the Town-wide GEIS.

Open Space Mitigation Fee: The Open Space Mitigation Fee will be calculated based on the proposed number of acres of disturbed developable land (clearing and grading limits) multiplied by \$1,206.00. One half (1/2) will be due at the time a building permit is issued for commercial, industrial and other non-residential uses with the remainder due at the time the certificate of occupancy or compliance is issued. For residential uses one half (1/2) of the Open Space Mitigation Fee will be due at the time each individual building permit is issued with the remainder due at the time the certificate of occupancy issued.

Open Space Mitigation Fees collected will be accounted for in a designated account and shall only be used by the Town to acquire, develop, provide access, preserve and protect open spaces, agricultural lands, water resources, trails, plant and wild life habitat, scenic views and vistas located within the Town.

Traffic Mitigation Fee: The Traffic Mitigation Fee will be calculated in consultation with CDTC (Capital District Transportation Committee). Applicant is responsible for the cost of review by CDTC. An escrow account must be established with the Town at the time of application.

One half (1/2) of the traffic mitigation fees will be due at the time a building permit is issued for commercial, industrial and other non-residential uses with the remainder due at the time the certificate of occupancy or compliance is issued. For residential uses one half (1/2) of the Traffic Mitigation Fee will be due at the time each individual building permit is issued with the remainder due at the time the certificate of occupancy is issued.

Traffic Mitigation Fees collected will be accounted for in a designated account and shall only be used by the Town to improve traffic infrastructure as identified in the Town-wide GEIS.
